Index of Subjects

Abomasal protein infusions
The effects of abomasal infusions of casein or soya-bean-protein isolate on the milk production of dairy cows in mid-lactation. **69**, 103, 1993
Absorption efficiency
The effect of dietary calcium intake in weanling rats on the efficiency of calcium absorption. **69**, 527, 1993
Active transport
The effect of *Escherichia coli* heat-stable (ST_A) enterotoxin on *in vitro* uptake of amino acids by small intestine of sucking rats during fluid accumulation. **69**, 757, 1993
Adolescents
Vitamin C intake and plasma ascorbic acid concentration in adolescents. **69**, 563, 1993
African catfish
The effect of dietary L-carnitine on the growth performance in fingerlings of the African catfish, (*Clarias gariepinus*) in relation to dietary lipid. **69**, 289, 1993
Ageing
Energy balance in healthy elderly women. **69**, 21, 1993
Alcoholic liver cirrhosis
Nutritional assessment and adequacy of dietary intake in hospitalized patients with alcoholic liver cirrhosis. **69**, 665, 1993
Amino acids
The effect of *Escherichia coli* heat-stable (ST_A) enterotoxin on *in vitro* uptake of amino acids by small intestine of sucking rats during fluid accumulation. **69**, 757, 1993
Anthropometry
Comparison of body composition assessments by bioelectrical impedance and by anthropometry in premenopausal Chinese women. **69**, 657, 1993
Antioxidant vitamins
Nutrient intake by duration of ex-smoking in the Scottish Heart Health Study. **69**, 315, 1993
Antioxidants
Prevention of oxidative damage in the rat jejunal mucosa by pectin. **69**, 789, 1993
Appetite
Diet selection in sheep: the ability of growing lambs to select a diet that meets their crude protein (nitrogen × 6·25) requirements. **69**, 617, 1993
Ascariasis
Vitamin A absorption in children with ascariasis. **69**, 817, 1993
Autoimmunity
Prophylactic nutritional modification of the incidence of diabetes in autoimmune non-obese diabetic (NOD) mice. **69**, 597, 1993
Bacteria
Effects of galacto-oligosaccharide and bacterial status on mucin distribution in mucosa and on large intestine fermentation in rats. **69**, 903, 1993
Bioavailability
A continuous *in vitro* method for estimation of the bioavailability of minerals and trace elements in foods: application to breads varying in phytic acid content. **69**, 849, 1993
Bioelectrical impedance
Estimation of body composition from bioelectrical impedance of body segments: comparison with dual-energy X-ray absorptiometry. **69**, 645, 1993
Comparison of body composition assessments by bioelectrical impedance and by anthropometry in premenopausal Chinese women. **69**, 657, 1993
Body composition
Estimation of body composition from bioelectrical impedance of body segments: comparison with dual-energy X-ray absorptiometry. **69**, 645, 1993
Comparison of body composition assessments by bioelectrical impedance and by anthropometry in premenopausal Chinese women. **69**, 657, 1993
Body energy content
New and simple equations to estimate the energy and fat contents, and energy density of humans in sickness and health. **69**, 631, 1993
Bone turnover
The influence of a low-boron diet and boron supplementation on bone, major mineral and sex steroid metabolism in postmenopausal women. **69**, 871, 1993
Boron
The influence of a low-boron diet and boron supplementation on bone, major mineral and sex steroid metabolism in postmenopausal women. **69**, 871, 1993
Broilers
The effect of dietary 1,25-dihydroxycholecalciferol in preventing tibial dyschondroplasia in broilers fed on diets imbalanced in calcium and phosphorus. **69**, 809, 1993
Cadmium
The effects of whole wheat, wheat bran and zinc in the diet on the absorption and accumulation of cadmium in rats. **69**, 199, 1993
Caecal fermentation
Cholecalciferol supplementation alters gut function and improves digestibility in an underground inhabitant, the naked mole rat (*Heterocephalus glaber*) when fed on a carrot diet. **69**, 233, 1993
Caecal water
The influence of wheat bran and pectin on the distribution of water in rat caecal contents and faeces. **69**, 913, 1993

Calcium
Effect of dietary calcium level on mineral and trace element utilization from a rapeseed (*Brassica napus* L.) diet fed to ileum-fistulated pigs. **69**, 211, 1993
The effect of dietary calcium intake in weanling rats on the efficiency of calcium absorption. **69**, 527, 1993
Inhibition of haem-iron absorption in man by calcium. **69**, 533, 1993
Urinary excretion of magnesium and calcium as an index of absorption is not affected by lactose intake in healthy adults. **69**, 863, 1993
The influence of a low-boron diet and boron supplementation on bone, major mineral and sex steroid metabolism in postmenopausal women. **69**, 871, 1993
The calcium and phosphorus intakes of rural Gambian women during pregnancy and lacta tion. **69**, 885, 1993

Calcium–phosphorus balance
The effect of dietary 1,25-dihydroxycholecalciferol in preventing tibial dyschondroplasia in broilers fed on diets imbalanced in calcium and phosphorus. **69**, 809, 1993

Calves
The effect of a cold environment on protein and energy metabolism in calves. **69**, 127, 1993

L-Carnitine
The effect of dietary L-carnitine on the growth performance in fingerlings of the African catfish, (*Clarias gariepinus*) in relation to dietary lipid. **69**, 289, 1993

Casein
The effects of abomasal infusions of casein or soya-bean-protein isolate on the milk production of dairy cows in mid-lactation. **69**, 103, 1993
Impact of exocrine pancreatic adaptation on *in vitro* protein digestibility. **69**, 359, 1993

Cassava
The effects of chronic cassava consumption, cyanide intoxication and protein malnutrition on glucose tolerance in growing rats. **69**, 269, 1993
Pathological changes in growing dogs fed on a balanced cassava (*Manihot esculenta* Crantz) diet. **69**, 921, 1993

Cell turnover
A proposed intestinal mechanism for the effect of riboflavin deficiency on iron loss in the rat. **69**, 553, 1993

CHD risk
Nutrient intake by duration of ex-smoking in the Scottish Heart Health Study. **69**, 315, 1993

Childhood
Vitamin A absorption in children with ascariasis. **69**, 817, 1993

Cholecalciferol
Cholecalciferol supplementation alters gut function and improves digestibility in an underground inhabitant, the naked mole rat (*Heterocephalus glaber*) when fed on a carrot diet. **69**, 233, 1993
The effect of dietary 1,25-dihydroxycholecalciferol in preventing tibial dyschondroplasia in broilers fed on diets imbalanced in calcium and phosphorus. **69**, 809, 1993

Cold environment
The effect of a cold environment on protein and energy metabolism in calves. **69**, 127, 1993

Colonic function
The effect of feeding xanthan gum on colonic function in man: correlation with *in vitro* determinants of bacterial breakdown. **69**, 897, 1993

Complex carbohydrates
Gastrointestinal responses of rats fed on white and wholemeal breads: complex carbohydrate digestibility and the influence of dietary fat content. **69**, 481, 1993
Complex carbohydrate digestion and large bowel fermentation in rats given wholemeal bread and cooked haricot beans (*Phaseolus vulgaris*) fed in mixed diets. **69**, 497, 1993

Continuous *in vitro* method
A continuous *in vitro* method for estimation of the bioavailability of minerals and trace elements in foods: application to breads varying in phytic acid content. **69**, 849, 1993

Cretinism
Goitre in Ethiopia. **69**, 257, 1993

Cyanide
The effects of chronic cassava consumption, cyanide intoxication and protein malnutrition on glucose tolerance in growing rats. **69**, 269, 1993

Cytokine production
The effect of replacement of dietary fat by palm oil on the *in vitro* cytokine release. **69**, 159, 1993

Dairy cows
The effects of abomasal infusions of casein or soya-bean-protein isolate on the milk production of dairy cows in mid-lactation. **69**, 103, 1993
Absorption of volatile fatty acids from the rumen of lactating dairy cows as influenced by volatile fatty acid concentration, pH, and rumen liquid volume. **69**, 385, 1993
Responses in the voluntary intake of hay or silage by lactating cows to intraruminal infusions of sodium acetate or sodium propionate, the tonicity of rumen fluid or rumen distension. **69**, 699, 1993
The voluntary intake of hay and silage by lactating cows in response to ruminal infusion of acetate or propionate, or both, with or without distension of the rumen by a balloon. **69**, 713, 1993

Deoxyuridine suppression
Biochemical responses of broiler chicks to folate deficiency. **69**, 801, 1993

DEXA
Estimation of body composition from bioelectrical impedance of body segments: comparison with dual-energy X-ray absorptiometry. **69**, 645, 1993

Diabetes mellitus
The effects of chronic cassava consumption, cyanide intoxication and protein malnutrition on glucose tolerance in growing rats. **69**, 269, 1993

Dietary fat
Gastrointestinal responses of rats fed on white and wholemeal breads: complex carbohydrate digestibility and the influence of dietary fat content. **69**, 481, 1993

Dietary fibre
Uniformly ^{14}C-labelled plant cell walls: production, analysis and behaviour in the rat's gastrointestinal tract. **69**, 177, 1993
Fermentation and subsequent disposition of ^{14}C-labelled plant cell wall material in the rat. **69**, 189, 1993
Diet and incident ischaemic heart disease: the Caerphilly Study. **69**, 303, 1993
High α-linolenic acid flaxseed (*Linum usitatissimum*): some nutritional properties in humans. **69**, 443, 1993
The influence of wheat bran and pectin on the distribution of water in rat caecal contents and faeces. **69**, 913, 1993

Dietary intake
Nutritional assessment and adequacy of dietary intake in hospitalized patients with alcoholic liver cirrhosis. **69**, 665, 1993

Dietary protein
Effects of protein nutrition on the mRNA content of insulin-like growth factor-binding protein-1 in liver and kidney of rats. **69**, 73, 1993

Dietary supplements
The energy and nutrient intakes of different types of vegetarian: a case for supplements? **69**, 3, 1993

Dietary toxins
Glutathione content of the small intestine: regulation and function. **69**, 589, 1993

Differentiation
The effect of undernutrition in the early postnatal period on skeletal muscle tissue. **69**, 141, 1993

Digestive enzymes
Comparative changes between pancreas and pancreatic juice digestive enzyme contents during nutritional rehabilitation following severe protein malnutrition in the rat. **69**, 83, 1993

Dihydrofolate reductase
Biochemical responses of broiler chicks to folate deficiency. **69**, 801, 1993

Dioctyl sodium sulphosuccinate
The effects of continuous ruminal dosing with dioctyl sodium sulphosuccinate on ruminal and metabolic characteristics of lactating Holstein cows. **69**, 397, 1993

Disaccharide alcohols
The digestion process of the sugar alcohol isomalt in the intestinal tract of the pig 1. Studies with administration of isomalt in the feed. **69**, 455, 1993
The digestion process of the sugar alcohol isomalt in the intestinal tract of the pig 2. Studies with administration of isomalt as a sweet. **69**, 467, 1993

Discriminant analysis
Nutrient intake by duration of ex-smoking in the Scottish Heart Health Study. **69**, 315, 1993

Editorial
Presentation of data. **69**, 1, 1993
Design Faults **69**, 301, 1993
The Editors' dilemma **69**, 615, 1993

Energy balance
Energy balance in healthy elderly women. **69**, 21, 1993

Energy intake
Diet and incident ischaemic heart disease: the Caerphilly Study. **69**, 303, 1993

Energy metabolic rates
Intra- and inter-individual variations in energy expenditure of 14–15-year-old schoolgirls as determined by indirect calorimetry. **69**, 29, 1993

Energy metabolism
The effect of a cold environment on protein and energy metabolism in calves. **69**, 127, 1993

Enterotoxigenic *Escherichia coli*
The effect of *Escherichia coli* heat-stable (ST_A) enterotoxin on *in vitro* uptake of amino acids by small intestine of sucking rats during fluid accumulation. **69**, 757, 1993

Erythritol metabolism
Metabolism of erythritol in humans: comparison with glucose and lactitol. **69**, 169, 1993

Ex-smokers
Nutrient intake by duration of ex-smoking in the Scottish Heart Health Study. **69**, 315, 1993

Faecal water
The influence of wheat bran and pectin on the distribution of water in rat caecal contents and faeces. **69**, 913, 1993

Fat intake
Effects of dietary protein and fat level on oxidative phosphorylation in rat heart mitochondria. **69**, 97, 1993
The effect of different dietary fats on gastrin levels in the pyloric antrum and plasma of weaner and adult Wistar rats. **69**, 151, 1993
The effect of dietary L-carnitine on the growth performance in fingerlings of the African catfish, (*Clarias gariepinus*) in relation to dietary lipid. **69**, 289, 1993
Diet and incident ischaemic heart disease: the Caerphilly Study. **69**, 303, 1993

Fat retention
The respiratory quotient in relation to fat deposition in fattening–growing pigs. **69**, 333, 1993

Feed composition
Interactions between major nutrients in the diet and the lactational performance of rats. **69**, 59, 1993

Feed preferences
Diet selection in sheep: the ability of growing lambs to select a diet that meets their crude protein (nitrogen × 6·25) requirements. **69**, 617, 1993

Fenugreek
The effect of an ethanol extract derived from fenugreek (*Trigonella foenum-graecum*) on bile acid absorption and cholesterol levels in rats. **69**, 277, 1993

Fermentation
Uniformly ^{14}C-labelled plant cell walls: production,

analysis and behaviour in the rat's gastrointestinal tract. **69**, 177, 1993
Fermentation and subsequent disposition of ^{14}C-labelled plant cell wall material in the rat. **69**, 189, 1993
Assessment of fermentation in growing pigs given unmolassed sugar-beet pulp: a stoichiometric approach. **69**, 511, 1993
The effect of feeding xanthan gum on colonic function in man: correlation with *in vitro* determinants of bacterial breakdown. **69**, 897, 1993

Fish nutrition
The effect of dietary L-carnitine on the growth performance in fingerlings of the African catfish, (*Clarias gariepinus*) in relation to dietary lipid. **69**, 289, 1993

Fish oil
The effect of increasing levels of dietary fish oil rich in eicosapentaenoic and docosahexaenoic acids on lymphocyte phospholipid fatty acid composition and cell-mediated immunity in the mouse. **69**, 423, 1993

Fish proteins
Influence of dietary fish proteins on plasma and liver cholesterol concentrations in rats. **69**, 767, 1993

Flaxseed
High α-linolenic acid flaxseed (*Linum usitatissimum*): some nutritional properties in humans. **69**, 443, 1993

Folic acid
Biochemical responses of broiler chicks to folate deficiency. **69**, 801, 1993
Absorption of pteroylpolyglutamates in mothers of infants with neural tube defects. **69**, 827, 1993

Free radicals
Prevention of oxidative damage in the rat jejunal mucosa by pectin. **69**, 789, 1993

24 h Gas exchange
The respiratory quotient in relation to fat deposition in fattening–growing pigs. **69**, 333, 1993

Gastrin
The effect of different dietary fats on gastrin levels in the pyloric antrum and plasma of weaner and adult Wistar rats. **69**, 151, 1993

Gastrointestinal hormones
Effect of some gastrointestinal hormones on motor and electrical activity of the digestive tract in the conscious cat. **69**, 371, 1993

Glucose
Metabolism of erythritol in humans: comparison with glucose and lactitol. **69**, 169, 1993

Glutathione
Glutathione content of the small intestine: regulation and function. **69**, 589, 1993

Glutathione peroxidase
Long-term supplementation with selenate and selenomethionine: selenium and glutathione peroxidase (*EC* 1.11.1.9) in blood components of New Zealand women. **69**, 577, 1993

Glutathione reductase
The effect of exercise on the riboflavin status of adult men. **69**, 541, 1993

Goitre
Goitre in Ethiopia. **69**, 257, 1993

Growth
A trial of zinc supplementation in young rural Gambian children. **69**, 243, 1993
Diet selection in sheep: the ability of growing lambs to select a diet that meets their crude protein (nitrogen × 6·25) requirements. **69**, 617, 1993

Haem-iron
Inhibition of haem-iron absorption in man by calcium. **69**, 533, 1993

Haricot beans
Complex carbohydrate digestion and large bowel fermentation in rats given wholemeal bread and cooked haricot beans (*Phaseolus vulgaris*) fed in mixed diets. **69**, 497, 1993

Hay
Responses in the voluntary intake of hay or silage by lactating cows to intraruminal infusions of sodium acetate or sodium propionate, the tonicity of rumen fluid or rumen distension. **69**, 699, 1993

Healthy elderly women
Energy balance in healthy elderly women. **69**, 21, 1993

Heat production
Effect of dietary protein and energy intakes on whole-body protein turnover and its contribution to heat production in chicks. **69**, 681, 1993

Heat-stable (ST) toxin
The effect of *Escherichia coli* heat-stable (ST_A) enterotoxin on *in vitro* uptake of amino acids by small intestine of sucking rats during fluid accumulation. **69**, 757, 1993

Hindgut
Effects of galacto-oligosaccharide and bacterial status on mucin distribution in mucosa and on large intestine fermentation in rats. **69**, 903, 1993

Hindlimb protein turnover
Hindlimb protein turnover and muscle protein synthesis in lambs: a comparison of techniques. **69**, 345, 1993

Hospital patients
Nutritional assessment and adequacy of dietary intake in hospitalized patients with alcoholic liver cirrhosis. **69**, 665, 1993

Human skeletal muscle
Temporal responses of protein synthesis in human skeletal muscle to feeding. **69**, 117, 1993

Hypercholesterolaemic rats
The effect of an ethanol extract derived from fenugreek (*Trigonella foenum-graecum*) on bile acid absorption and cholesterol levels in rats. **69**, 277, 1993

Hypocholesterolaemic effect
Comparative effects of four legume species on plasma lipids and faecal steroid excretion in hypercholesterolaemic pigs. **69**, 409, 1993

IGF-binding protein-1 mRNA
Effects of protein nutrition on the mRNA content of insulin-like growth factor-binding protein-1 in liver and kidney of rats. **69**, 73, 1993

Immune function
The effect of increasing levels of dietary fish oil rich

in eicosapentaenoic and docosahexaenoic acids on lymphocyte phospholipid fatty acid composition and cell-mediated immunity in the mouse. **69**, 423, 1993

***In vitro* protein digestibility**
Impact of exocrine pancreatic adaptation on *in vitro* protein digestibility. **69**, 359, 1993

Indirect calorimetry
Intra- and inter-individual variations in energy expenditure of 14–15-year-old schoolgirls as determined by indirect calorimetry. **69**, 29, 1993

Infants
A trial of zinc supplementation in young rural Gambian children. **69**, 243, 1993
Absorption of pteroylpolyglutamates in mothers of infants with neural tube defects. **69**, 827, 1993

Insulin-dependent diabetes
Prophylactic nutritional modification of the incidence of diabetes in autoimmune non-obese diabetic (NOD) mice. **69**, 597, 1993

Insulin-like growth factor-1
Effects of protein nutrition on the mRNA content of insulin-like growth factor-binding protein-1 in liver and kidney of rats. **69**, 73, 1993

Intestinal absorption
Intestinal absorption and liver uptake of medium-chain fatty acids in non-anaesthetized pigs. **69**, 431, 1993
The effect of *Escherichia coli* heat-stable (ST_A) enterotoxin on *in vitro* uptake of amino acids by small intestine of sucking rats during fluid accumulation. **69**, 757, 1993

Intestinal mucosa
Glutathione content of the small intestine: regulation and function. **69**, 589, 1993

Intestine
Intestinal and hepatic nitrogen balance in the rat after the administration of an oral protein load. **69**, 733, 1993

Intraruminal infusions
The voluntary intake of hay and silage by lactating cows in response to ruminal infusion of acetate or propionate, or both, with or without distension of the rumen by a balloon. **69**, 713, 1993

Iodine
Goitre in Ethiopia. **69**, 257, 1993

Iron
A proposed intestinal mechanism for the effect of riboflavin deficiency on iron loss in the rat. **69**, 553, 1993

Iron absorption
Inhibition of haem-iron absorption in man by calcium. **69**, 533, 1993

Ischaemic heart disease
Diet and incident ischaemic heart disease: the Caerphilly Study. **69**, 303, 1993

Isomalt
The digestion process of the sugar alcohol isomalt in the intestinal tract of the pig 1. Studies with administration of isomalt in the feed. **69**, 455, 1993
The digestion process of the sugar alcohol isomalt in the intestinal tract of the pig 2. Studies with administration of isomalt as a sweet. **69**, 467, 1993

Kinetic model
Measurement of 3-methylhistidine production in lambs by using compartmental-kinetic analysis. **69**, 743, 1993

Lactating cows
The effects of continuous ruminal dosing with dioctyl sodium sulphosuccinate on ruminal and metabolic characteristics of lactating Holstein cows. **69**, 397, 1993

Lactation
Interactions between major nutrients in the diet and the lactational performance of rats. **69**, 59, 1993
Effects of feeding medium-chain triacylglycerols on maternal lipid metabolism and pup growth in lactating rats. **69**, 779, 1993
The calcium and phosphorus intakes of rural Gambian women during pregnancy and lactation. **69**, 885, 1993

Lactitol
Metabolism of erythritol in humans: comparison with glucose and lactitol. **69**, 169, 1993

Lactose
Urinary excretion of magnesium and calcium as an index of absorption is not affected by lactose intake in healthy adults. **69**, 863, 1993

Large bowel fermentation
Gastrointestinal responses of rats fed on white and wholemeal breads: complex carbohydrate digestibility and the influence of dietary fat content. **69**, 481, 1993
Complex carbohydrate digestion and large bowel fermentation in rats given wholemeal bread and cooked haricot beans (*Phaseolus vulgaris*) fed in mixed diets. **69**, 497, 1993

Legumes
Comparative effects of four legume species on plasma lipids and faecal steroid excretion in hypercholesterolaemic pigs. **69**, 409, 1993

Linamarin
Pathological changes in growing dogs fed on a balanced cassava (*Manihot esculenta* Crantz) diet. **69**, 921, 1993

α-Linolenic acid
High α-linolenic acid flaxseed (*Linum usitatissimum*): some nutritional properties in humans. **69**, 443, 1993

Lipid metabolism
Comparative effects of four legume species on plasma lipids and faecal steroid excretion in hypercholesterolaemic pigs. **69**, 409, 1993

Lipogenesis
The respiratory quotient in relation to fat deposition in fattening–growing pigs. **69**, 333, 1993

Liver
Intestinal absorption and liver uptake of medium-chain fatty acids in non-anaesthetized pigs. **69**, 431, 1993

Glutathione content of the small intestine: regulation and function. **69**, 589, 1993
Intestinal and hepatic nitrogen balance in the rat after the administration of an oral protein load. **69**, 733, 1993

Lymphocyte function
Functional capacity of the residual lymphocytes from zinc-deficient adult mice. **69**, 835, 1993

Lymphocytes
The effect of increasing levels of dietary fish oil rich in eicosapentaenoic and docosahexaenoic acids on lymphocyte phospholipid fatty acid composition and cell-mediated immunity in the mouse. **69**, 423, 1993

Lysine
Effect of somatotropin administration and duodenal infusion of methionine and lysine on lactational performance and nutrient flow to the small intestine. **69**, 49, 1993

Macronutrients
The energy and nutrient intakes of different types of vegetarian: a case for supplements? **69**, 3, 1993

Magnesium
Urinary excretion of magnesium and calcium as an index of absorption is not affected by lactose intake in healthy adults. **69**, 863, 1993

Mechanical efficiency
The effect of exercise on the riboflavin status of adult men. **69**, 541, 1993

Medium-chain triacylglycerols
Intestinal absorption and liver uptake of medium-chain fatty acids in non-anaesthetized pigs. **69**, 431, 1993
Effects of feeding medium-chain triacylglycerols on maternal lipid metabolism and pup growth in lactating rats. **69**, 779, 1993

Methionine
Effect of somatotropin administration and duodenal infusion of methionine and lysine on lactational performance and nutrient flow to the small intestine. **69**, 49, 1993

3-Methylhistidine
Measurement of 3-methylhistidine production in lambs by using compartmental-kinetic analysis. **69**, 743, 1993

Micronutrients
The energy and nutrient intakes of different types of vegetarian: a case for supplements? **69**, 3, 1993

Milk production
The effects of abomasal infusions of casein or soya-bean-protein isolate on the milk production of dairy cows in mid-lactation. **69**, 103, 1993

Mineral bioavailability
Effect of dietary calcium level on mineral and trace element utilization from a rapeseed (*Brassica napus* L.) diet fed to ileum-fistulated pigs. **69**, 211, 1993

Minerals and trace elements
A continuous *in vitro* method for estimation of the bioavailability of minerals and trace elements in foods: application to breads varying in phytic acid content. **69**, 849, 1993

Mole rats
Cholecalciferol supplementation alters gut function and improves digestibility in an underground inhabitant, the naked mole rat (*Heterocephalus glaber*) when fed on a carrot diet. **69**, 233, 1993

Monosodium glutamate
Factors affecting the voluntary intake of food by sheep 6. The effect of monosodium glutamate on the palatability of straw diets by sham-fed and normal animals. **69**, 37, 1993

Motor and electrical activity
Effect of some gastrointestinal hormones on motor and electrical activity of the digestive tract in the conscious cat. **69**, 371, 1993

Mucins
Effects of galacto-oligosaccharide and bacterial status on mucin distribution in mucosa and on large intestine fermentation in rats. **69**, 903, 1993

Mucosal damage
Prevention of oxidative damage in the rat jejunal mucosa by pectin. **69**, 789, 1993

Muscle
The effect of undernutrition in the early postnatal period on skeletal muscle tissue. **69**, 141, 1993

Muscle metabolism
Metabolic effects on growth and muscle of soya-bean protein feeding in cod (*Gadus morhua*). **69**, 689, 1993

N balance
Intestinal and hepatic nitrogen balance in the rat after the administration of an oral protein load. **69**, 733, 1993

Neural tube defects
Absorption of pteroylpolyglutamates in mothers of infants with neural tube defects. **69**, 827, 1993

NOD mice
Prophylactic nutritional modification of the incidence of diabetes in autoimmune non-obese diabetic (NOD) mice. **69**, 597, 1993

Non-haem iron
Inhibition of haem-iron absorption in man by calcium. **69**, 533, 1993

Nutrient flow
Effect of somatotropin administration and duodenal infusion of methionine and lysine on lactational performance and nutrient flow to the small intestine. **69**, 49, 1993

Nutrient intake
Nutrient intake by duration of ex-smoking in the Scottish Heart Health Study. **69**, 315, 1993

Nutritional myopathy
Plasma and tissue concentrations of α-tocopherol during vitamin E depletion in sheep. **69**, 225, 1993

Nutritional status
Nutritional assessment and adequacy of dietary intake in hospitalized patients with alcoholic liver cirrhosis. **69**, 665, 1993

1,25 $(OH)_2$ cholecalciferol
The effect of dietary 1,25-dihydroxycholecalciferol in preventing tibial dyschondroplasia in broilers fed on diets imbalanced in calcium and phosphorus. **69**, 809, 1993

Oligosaccharide
Effects of galacto-oligosaccharide and bacterial status on mucin distribution in mucosa and on large intestine fermentation in rats. **69**, 903, 1993

Oxidative phosphorylation
Effects of dietary protein and fat level on oxidative phosphorylation in rat heart mitochondria. **69**, 97, 1993

Oxidative stress
Glutathione content of the small intestine: regulation and function. **69**, 589, 1993
Prevention of oxidative damage in the rat jejunal mucosa by pectin. **69**, 789, 1993

Palatability
Factors affecting the voluntary intake of food by sheep 6. The effect of monosodium glutamate on the palatability of straw diets by sham-fed and normal animals. **69**, 37, 1993

Palm-oil diet
The effect of replacement of dietary fat by palm oil on the *in vitro* cytokine release. **69**, 159, 1993

Pancreatic juice
Impact of exocrine pancreatic adaptation on *in vitro* protein digestibility. **69**, 359, 1993

Pancreatic secretion
Comparative changes between pancreas and pancreatic juice digestive enzyme contents during nutritional rehabilitation following severe protein malnutrition in the rat. **69**, 83, 1993

Pathological changes
Pathological changes in growing dogs fed on a balanced cassava (*Manihot esculenta* Crantz) diet. **69**, 921, 1993

Pectin
Prevention of oxidative damage in the rat jejunal mucosa by pectin. **69**, 789, 1993

Phosphoribosylpyrophosphate
Biochemical responses of broiler chicks to folate deficiency. **69**, 801, 1993

Phosphorus
The calcium and phosphorus intakes of rural Gambian women during pregnancy and lactation. **69**, 885, 1993

Physical activity
The effect of exercise on the riboflavin status of adult men. **69**, 541, 1993

Phytate
A continuous *in vitro* method for estimation of the bioavailability of minerals and trace elements in foods: application to breads varying in phytic acid content. **69**, 849, 1993

Plant cell walls
Uniformly ^{14}C-labelled plant cell walls: production, analysis and behaviour in the rat's gastrointestinal tract. **69**, 177, 1993
Fermentation and subsequent disposition of ^{14}C-labelled plant cell wall material in the rat. **69**, 189, 1993

Plasma ascorbic acid
Vitamin C intake and plasma ascorbic acid concentration in adolescents. **69**, 563, 1993

Plasma cholesterol
Influence of dietary fish proteins on plasma and liver cholesterol concentrations in rats. **69**, 767, 1993

Platelets
Long-term supplementation with selenate and selenomethionine: selenium and glutathione peroxidase (*EC* 1.11.1.9) in blood components of New Zealand women. **69**, 577, 1993

Polysaccharide
The effect of feeding xanthan gum on colonic function in man: correlation with *in vitro* determinants of bacterial breakdown. **69**, 897, 1993

Polyunsaturated fatty acids
The effect of increasing levels of dietary fish oil rich in eicosapentaenoic and docosahexaenoic acids on lymphocyte phospholipid fatty acid composition and cell-mediated immunity in the mouse. **69**, 423, 1993

Pregnancy
The calcium and phosphorus intakes of rural Gambian women during pregnancy and lactation. **69**, 885, 1993

Prophylactic nutrition
Prophylactic nutritional modification of the incidence of diabetes in autoimmune non-obese diabetic (NOD) mice. **69**, 597, 1993

Protein deficiency
Effects of protein nutrition on the mRNA content of insulin-like growth factor-binding protein-1 in liver and kidney of rats. **69**, 73, 1993

Protein intake
Effects of dietary protein and fat level on oxidative phosphorylation in rat heart mitochondria. **69**, 97, 1993
Diet selection in sheep: the ability of growing lambs to select a diet that meets their crude protein (nitrogen × 6·25) requirements. **69**, 617, 1993
Influence of dietary fish proteins on plasma and liver cholesterol concentrations in rats. **69**, 767, 1993

Protein load
Intestinal and hepatic nitrogen balance in the rat after the administration of an oral protein load. **69**, 733, 1993

Protein malnutrition and rehabilitation
Comparative changes between pancreas and pancreatic juice digestive enzyme contents during nutritional rehabilitation following severe protein malnutrition in the rat. **69**, 83, 1993

Protein metabolism
The effect of a cold environment on protein and energy metabolism in calves. **69**, 127, 1993

Protein synthesis
Temporal responses of protein synthesis in human skeletal muscle to feeding. **69**, 117, 1993
The effect of a cold environment on protein and energy metabolism in calves. **69**, 127, 1993
Hindlimb protein turnover and muscle protein synthesis in lambs: a comparison of techniques. **69**, 345, 1993

Protein-energy malnutrition
The effects of chronic cassava consumption, cyanide

intoxication and protein malnutrition on glucose tolerance in growing rats. **69**, 269, 1993

Purine excretion
Rumen digestion and urinary excretion of purine derivatives in response to urea supplementation of sodium-treated straw fed to sheep. **69**, 721, 1993

Rapeseed
Impact of exocrine pancreatic adaptation on *in vitro* protein digestibility. **69**, 359, 1993

Rapeseed meal
Effect of dietary calcium level on mineral and trace element utilization from a rapeseed (*Brassica napus* L.) diet fed to ileum-fistulated pigs. **69**, 211, 1993

Respiratory quotient
The respiratory quotient in relation to fat deposition in fattening–growing pigs. **69**, 333, 1993

Response to feeding
Temporal responses of protein synthesis in human skeletal muscle to feeding. **69**, 117, 1993

Riboflavin
The effect of exercise on the riboflavin status of adult men. **69**, 541, 1993

Riboflavin deficiency
A proposed intestinal mechanism for the effect of riboflavin deficiency on iron loss in the rat. **69**, 553, 1993

Rumen
The effects of continuous ruminal dosing with dioctyl sodium sulphosuccinate on ruminal and metabolic characteristics of lactating Holstein cows. **69**, 397, 1993

Rumen ammonia
Rumen digestion and urinary excretion of purine derivatives in response to urea supplementation of sodium-treated straw fed to sheep. **69**, 721, 1993

Rumen distension
The voluntary intake of hay and silage by lactating cows in response to ruminal infusion of acetate or propionate, or both, with or without distension of the rumen by a balloon. **69**, 713, 1993

Saponin
The effect of an ethanol extract derived from fenugreek (*Trigonella foenum-graecum*) on bile acid absorption and cholesterol levels in rats. **69**, 277, 1993

Schoolgirls
Intra- and inter-individual variations in energy expenditure of 14–15-year-old schoolgirls as determined by indirect calorimetry. **69**, 29, 1993

Selenium
Long-term supplementation with selenate and selenomethionine: selenium and glutathione peroxidase (*EC* 1.11.1.9) in blood components of New Zealand women. **69**, 577, 1993

Silage
Responses in the voluntary intake of hay or silage by lactating cows to intraruminal infusions of sodium acetate or sodium propionate, the tonicity of rumen fluid or rumen distension. **69**, 699, 1993

Skeletal muscle
Hindlimb protein turnover and muscle protein synthesis in lambs: a comparison of techniques. **69**, 345, 1993

Small intestine
A proposed intestinal mechanism for the effect of riboflavin deficiency on iron loss in the rat. **69**, 553, 1993

Somatotropin
Effect of somatotropin administration and duodenal infusion of methionine and lysine on lactational performance and nutrient flow to the small intestine. **69**, 49, 1993

Soya-bean protein
Metabolic effects on growth and muscle of soya-bean protein feeding in cod (*Gadus morhua*). **69**, 689, 1993

Soya-bean-protein isolate
The effects of abomasal infusions of casein or soya-bean-protein isolate on the milk production of dairy cows in mid-lactation. **69**, 103, 1993

Sugar digestion
The digestion process of the sugar alcohol isomalt in the intestinal tract of the pig 1. Studies with administration of isomalt in the feed. **69**, 455, 1993

The digestion process of the sugar alcohol isomalt in the intestinal tract of the pig 2. Studies with administration of isomalt as a sweet. **69**, 467, 1993

Supplementation
A trial of zinc supplementation in young rural Gambian children. **69**, 243, 1993

Thymulin
A trial of zinc supplementation in young rural Gambian children. **69**, 243, 1993

Tibial dyschondroplasia
The effect of dietary 1,25-dihydroxycholecalciferol in preventing tibial dyschondroplasia in broilers fed on diets imbalanced in calcium and phosphorus. **69**, 809, 1993

α-Tocopherol
Plasma and tissue concentrations of α-tocopherol during vitamin E depletion in sheep. **69**, 225, 1993

Tropical medicine
The effects of chronic cassava consumption, cyanide intoxication and protein malnutrition on glucose tolerance in growing rats. **69**, 269, 1993

Tumour necrosis factor
The effect of replacement of dietary fat by palm oil on the *in vitro* cytokine release. **69**, 159, 1993

Undernutrition
The effect of undernutrition in the early postnatal period on skeletal muscle tissue. **69**, 141, 1993

Unmolassed sugar-beet pulp
Assessment of fermentation in growing pigs given unmolassed sugar-beet pulp: a stoichiometric approach. **69**, 511, 1993

Vegan
The energy and nutrient intakes of different types of vegetarian: a case for supplements? **69**, 3, 1993

Vegetarian
The energy and nutrient intakes of different types of vegetarian: a case for supplements? **69**, 3, 1993

Vitamin A
Vitamin A absorption in children with ascariasis. **69**, 817, 1993

Vitamin C
Diet and incident ischaemic heart disease: the Caerphilly Study. **69**, 303, 1993
Vitamin C intake and plasma ascorbic acid concentration in adolescents. **69**, 563, 1993
Vitamin E
Plasma and tissue concentrations of α-tocopherol during vitamin E depletion in sheep. **69**, 225, 1993
Volatile fatty acids
Absorption of volatile fatty acids from the rumen of lactating dairy cows as influenced by volatile fatty acid concentration, pH, and rumen liquid volume. **69**, 385, 1993
Responses in the voluntary intake of hay or silage by lactating cows to intraruminal infusions of sodium acetate or sodium propionate, the tonicity of rumen fluid or rumen distension. **69**, 699, 1993
The voluntary intake of hay and silage by lactating cows in response to ruminal infusion of acetate or propionate, or both, with or without distension of the rumen by a balloon. **69**, 713, 1993
Voluntary food intake
Factors affecting the voluntary intake of food by sheep 6. The effect of monosodium glutamate on the palatability of straw diets by sham-fed and normal animals. **69**, 37, 1993
Voluntary intake
Responses in the voluntary intake of hay or silage by lactating cows to intraruminal infusions of sodium acetate or sodium propionate, the tonicity of rumen fluid or rumen distension. **69**, 699, 1993
The voluntary intake of hay and silage by lactating cows in response to ruminal infusion of acetate or propionate, or both, with or without distension of the rumen by a balloon. **69**, 713, 1993
Wheat bran
The effects of whole wheat, wheat bran and zinc in the diet on the absorption and accumulation of cadmium in rats. **69**, 199, 1993
White and wholemeal bread
Gastrointestinal responses of rats fed on white and wholemeal breads: complex carbohydrate digestibility and the influence of dietary fat content. **69**, 481, 1993
Whole-body protein turnover
Effect of dietary protein and energy intakes on whole-body protein turnover and its contribution to heat production in chicks. **69**, 681, 1993
Whole-grain wheat
The effects of whole wheat, wheat bran and zinc in the diet on the absorption and accumulation of cadmium in rats. **69**, 199, 1993
Wholemeal bread
Complex carbohydrate digestion and large bowel fermentation in rats given wholemeal bread and cooked haricot beans (*Phaseolus vulgaris*) fed in mixed diets. **69**, 497, 1993
Women
Long-term supplementation with selenate and selenomethionine: selenium and glutathione peroxidase (*EC* 1.11.1.9) in blood components of New Zealand women. **69**, 577, 1993
Zinc
The effects of whole wheat, wheat bran and zinc in the diet on the absorption and accumulation of cadmium in rats. **69**, 199, 1993
A trial of zinc supplementation in young rural Gambian children. **69**, 243, 1993
Functional capacity of the residual lymphocytes from zinc-deficient adult mice. **69**, 835, 1993
